### How to Apply for This Rebate

1. Rebate funds are limited. Contact rebates@dakotaelectric.com or 651-463-6243 to reserve funds. This is not a guarantee of project approval.
2. Fill out this rebate application. All information needs to be supplied before a rebate check can be issued. Please note all warranty information, rules, and qualifications on the rules and information tabs of this form.
3. Make a copy of this document for your records.
4. Complete and sign rebate forms. Mail or fax pages 1, 3 and 4 to:  
Rebates, Dakota Electric Association, 4300 220th Street West, Farmington, MN 55024  
Fax number: 651-460-7524

## Specific Rules and Qualifications

The cooperative offers rebates to qualifying members who purchase and install qualifying energy-efficient LED lighting products in new or existing buildings. If the system configuration does not fit one of the prescriptive rebates shown, the project may still qualify for a rebate through the Custom Energy Rebate program. The Custom Energy Rebate requires review and approval by the participating member cooperative. Illuminating Engineering Society (IES) light levels are recommended.

- LED interior lamps and downlight luminaires/fixtures must be ENERGY STAR® qualified. The lists of ENERGY STAR qualified products are available at [energystar.gov/SSLPartners](http://energystar.gov/SSLPartners). Lamps are listed under the section "*Partner Resources for LED Lamps*" and luminaires/ fixtures are listed under "*Partner Resources for LED Fixtures*."

- The ENERGY STAR list of qualified luminaires includes a variety of products. In order to qualify for the prescriptive rebates for LED downlight luminaires/fixtures, the product must be listed as "Commercial" or "Both" in the "Application" column of the ENERGY STAR product list. In addition, the product description in the "Product Type" column must include the word "Downlight."
- ENERGY STAR does not have a qualified products list for LED canopy or soffit lighting or LED refrigerated case lighting (therefore, an ENERGY STAR rating is not required for those specific prescriptive rebates).
- For exterior LED canopy and soffit lights eligibility, the member must be replacing HID fixtures only.
- Illuminating Engineering Society (IES) light levels are recommended.

## Warranty Information

Rebate qualifications do not imply any representation or warranty of such equipment, design or installation by the cooperative. The cooperative shall not be responsible or liable for any personal injury or property damage caused by this equipment. The cooperative does not guarantee that a specific level of energy or cost savings will result from the implementation of energy conservation measures or the use of products funded under this program. In no event shall the cooperative be liable for any incidental or consequential damages.

## Other Important Program Rules

1. Installation must be complete before rebate funds will be issued.
2. Members and vendors must submit itemized equipment invoices, along with rebate application and worksheet, to the cooperative. To ensure that the equipment installed meets the cooperative's performance standards, these invoices must itemize labor charges, quantity and price of the equipment installed, as well as information regarding the manufacturer and model numbers for all lamps, drivers and fixtures included in the rebate.
3. The cooperative reserves the right to conduct random inspections of installations.
4. The member is responsible for checking with the cooperative to determine whether funding is available and to verify program parameters.
5. Project must comply with all program specific rules and qualifications.
6. The maximum rebate amount shall be the lesser of 50 percent of the project cost or \$100,000.
7. Qualifying members must apply for 2012 rebates no later than November 15, 2012.
