

# ENERGYwise

FOR YOUR HOME

Your central air conditioner or air-source heat pump can be your best friend on hot summer days. If you treat it well and keep it running efficiently, it will keep you cool and comfortable for less money. The best way to ensure efficient operation of your cooling system is by having it tuned up every two years. A tune-up by a service expert can improve your unit's efficiency by as much as 20 percent, extend its life and help protect our environment.

## You choose which way to save

### 1. Dakota Electric can assign you a contractor with a guaranteed tune-up price of \$79.95.

- Contact Dakota Electric at 651-463-6212 or e-mail [energyservices@dakotaelectric.com](mailto:energyservices@dakotaelectric.com).
- A contractor will call you to set up a tune-up appointment.
- After the tune-up is completed, complete the member portion of the coupon below.
- Your contractor will collect the coupon and the \$79.95 fee from you. This fee does not include parts or coolant.
- This special price expires June 30, 2011.

### 2. Hire your own HVAC service contractor and receive a \$25 rebate as a credit on your electric bill.

- Hire the contractor of your choice.
- After completing the tune-up, have your contractor fill out the contractor portion of the coupon below.
- Complete the member portion of the coupon.
- Return the coupon to Dakota Electric along with a copy of the contractor invoice.
- The rebate option is available to members through Dec. 31, 2011.

### Important Rules

1. Tune-up must be completed where electricity is supplied by Dakota Electric Association.
2. The central air conditioner or air-source heat pump must be in operating condition, over three years of age and have not had a tune-up in the last two years.
3. Rebate submittal must follow the guidelines as listed above.
4. Program is subject to change or cancellation without notice. Call Dakota Electric to verify rebate status.
5. Program is for tune-ups only; it does not cover the cost for repairs of the air conditioner or heat pump.
