

WHO SHOULD FILE THIS APPLICATION: Anyone expressing interest to install generation which will interconnect with the Dakota Electric Association Distribution System. This application should be completed and returned to Dakota Electric Generation Interconnection Coordinator, in order to begin processing the request.

INFORMATION: This application is used by Dakota Electric to perform a preliminary Interconnection review. The Applicant shall complete as much of the form as possible. The fields in BOLD are required to be completed to the best of the Applicant's ability. The Applicant will be contacted if additional information is required. The response may take up to 15 business days after receipt of all the required information.

COST: See the fee schedule on page 9 of the Interconnection Process document.

GENERATOR		
Manufacturer:	Model:	
Type (Synchronous Induction, Inverter, etc):	Phases: 1 or 3	
Rated Output (Prime kW):	(Standby kW):	Frequency:
Rated Power Factor (%):	Rated Voltage (Volts):	Rated Current (Amperes):
Energy Source (gas, steam, hydro, wind, etc.)		
TYPE OF INTERCONNECTED OPERATION		
Interconnection / Transfer method:		
<input type="checkbox"/> Open <input type="checkbox"/> Quick Open <input type="checkbox"/> Closed <input type="checkbox"/> Soft Loading <input type="checkbox"/> Inverter		
Proposed use of generation: (Check all that may apply)	Duration Parallel:	
<input type="checkbox"/> Peak Reduction <input type="checkbox"/> Standby <input type="checkbox"/> Energy Sales <input type="checkbox"/> Cover Load	<input type="checkbox"/> None <input type="checkbox"/> Limited <input type="checkbox"/> Continuous	
Pre-Certified System: Yes / No (Circle one)	Exporting Energy Yes / No (Circle one)	
ESTIMATED LOAD INFORMATION		
The following information will be used to help properly design the interconnection. This Information is not intended as a commitment or contract for billing purposes.		
Minimum anticipated load (generation not operating):	kW:	kVA:
Maximum anticipated load (generation not operating):	kW:	kVA:

ESTIMATED START/COMPLETION DATES	
Construction start date:	Completion (operational) date:
DESCRIPTION OF PROPOSED INSTALLATION AND OPERATION	
<p><u>Attach a single line diagram showing the switchgear, transformers, and generation facilities. Give a general description of the manner of operation of the generation (cogeneration, closed-transition peak shaving, open-transition peak shaving, emergency power, etc.). Also, does the Applicant intend to sell power and energy or ancillary services and/or wheel power over Dakota Electric facilities? If there is intent to sell power and energy, also define the target market.</u></p>	
SIGN OFF AREA:	
<p>With this Application, the applicant is requesting Dakota Electric to review the proposed Generation System Interconnection. We request that Dakota Electric identifies the additional equipment and costs involved with the interconnection of this system and to provide a budgetary estimate of those costs. We understand that the estimated costs supplied by Dakota Electric will be estimated using the information provided. We also agree that we will supply, as requested, additional information, to allow Dakota Electric to better review this proposed Generation System interconnection. We have read the "Dakota Electric Association Distributed Generation Interconnection Requirements" and will design the Generation System and interconnection to meet those requirements.</p>
